About PICE-2017

Creativity is an act of conceiving something original or unusual. Innovation is the implementation of something new. Invention is the creation of something that has never been made before. In view of this, Department of Chemical Engineering, AISSMSCOE, Pune is organizing a National Level Competition on "Promising and Innovative Young Chemical Engineers" in order to promote creativity and originality among UG and PG students, on March 26, 2017. The main objectives of the event of PICE-2017 are to motivate and appreciate students for their creative work and let them think in a different way. The theme for PICE - Award 2017 competition is *Chemical Engineering and Allied Areas: Innovative ideas for National Wealth Creation.*

Eligibility and Rules

- Chemical Engineering and Other Allied areas such as biotechnology, nanotechnology, oils, polymer, petrochemical etc. from Second, Third and Final year UG and first and final year PG students under age of 30 years. **Final year UG and PG students can send their project abstract.**
- All teams are initially required to submit a written hypothesis/abstract for screening
- **Participants will present their original technological ideas and innovations** which are not published elsewhere in any format
- Shortlisted teams will be called to make 20-25 minutes power point presentation to a panel of judges (including questions and answer sessions)
- All participating teams are required to be present on the day of the presentation
- The decision of award committee will be final in all matters relating to this competition.
