

All India Shri Shivaji Memorial Society's
College Of Engineering, Pune-01
Institution of Engineers (India)
Students' Chapter (Electronics Engineering)
Report: Seminar (S)

Date: 11/07/2016

Seminar No. 01

Name of Event: Seminar on “Employability Skills and Design (ESD)”

Speaker: Mr. Sanjay A Choudhari, Director, Electronics Study Circle, Nashik

Audience: TE and BE Electronics Engineering Students

No. of Participants: 96 Students + 10 Faculties

Seminar on “ESD” delivered by Mr. Sanjay A Choudhari, Director, Electronics Study Circle, Nashik on 11/07/2016. He explained Electronics components used in Industries and how they are different than actual Electronics Components. He also given knowledge about Employability Skills and Design.

Objectives:

The Seminar on “ESD” is specially arranged for following Objectives:

- To identify and test components physically and confirm its pin configuration.
- To verify its function and application in models and circuits.
- To study PCB and its artwork design by using software.
- To acquaint students with soldering material, its use and technique of skillful soldering.
- To create curiosity about electronics circuits and projects on it.

Outcomes:

- A seminar on ESD-(Employability Skills and Design) was conducted with an aim to build interest in Electronics and boost their confidence. Resource Person Mr. Sanjay Chaudhari gave a perfect knowledge of component's identification.

- He taught some easy methods to identify diode, transistors, SCR etc. practically using DMM.
- Students were also shown application of these components.
- Guidance on Different color codes of resistor were given.
- Students were made aware about circuit and PCB designing.

Conclusion:

- The seminar gave the students the understanding to use components and to know the rating, specifications, standard value of respective device. It was an interactive session which provided students more of technical knowledge in their field. Resource Person also guided Students for their upcoming projects.

Student Coordinator: Ms. Himani Choudhari

Date: 15/07/2016

Seminar No. 02

Name of Event: Seminar on “Parity Generator/Checker”

Speaker: Ms. Ritvika Haldar

Audience: SE Electronics Engineering Students

No. of Participants: 33

Seminar on “Parity Generator/Checker” delivered by Ms. Ritvika Haldar on 15/07/2016. She explained how Parity Generator/Checker works and its applications in Electronics Stream.

Ms. Ritvika Haldar delivering Seminar on Parity Generator/Checker

Date: 02/09/2016

Seminar No. 03

Name of Event: Seminar on “MS Preparation and US Universities Interaction”

Speaker: Representatives from US Universities.

Audience: Engineering Students and Faculties.

No. of Participants: 84

Seminar on “MS Preparation” delivered by Experts from US Universities on 02/09/2016. They explained how MS Preparation can be done and admission procedure in US Universities. Interactive session with US Universities representatives was more interesting and students and Faculties got enough knowledge about the US Universities. Representatives from 08 Different US Universities interacted with Students and Faculties.

Glimpses:

Seminar on MS preparation and US Universities Interaction is in progress

Date: 07/09/2016

Seminar No. 04

Name of Event: Seminar on “Digital Marketing”

Speaker: Mr. Yogi Udgire, Director, Institute of Digital Marketing, Mumbai.

Audience: Electronics Engineering Students

No. of Participants: 76

Seminar on “Digital Marketing” delivered by Mr. Yogi Udgire, Director, Institute of Digital Marketing, Mumbai on 07/09/2016. He explained what is Digital Marketing? How it can be possible on Social Media like Face book? He explained how Digital Marketing can be possible through different social media and how it is important in Electronics Stream. He also explained about the scopes of Entrepreneurship in the field of Digital Marketing. Student’s feedback about the Seminar was excellent.

Glimpses:
