ABOUT SOCIETY

All India Shri Shivaji Memorial Society (AISSMS), Pune was established in 1917 by Late Shrimant Shri Shahu Chhatrapati Maharaj of Kolhapur with the sole purpose of promoting the noble cause of education. Society runs 19 educational institutions, College of Engineering being one of them.

INSTITUTION

AISSMS College of Engineering, Pune was established in the year 1992. The College is affiliated to the University of Pune. It conducts undergraduate courses in various disciplines of engineering namely, Chemical, Civil, Computer, Electrical, Electronics, Mechanical, Mechanical Sandwich and Production Sandwich and post graduate courses in Chemical, Structure, Computer, Power Electronics and Drives, Microwave, Automotive and Design. College is located in the heart of the Pune city on a sprawling campus spread over 11 acres of land.

DEPARTMENT

Department of Civil Engineering was started in 2002, have UG (BE) two divisions and PG (Structure) program permanently affiliated to SPPU.

RESOURCE PERSONS

The expert lectures of professionals from academia, industry and research will be organized. Participants will get opportunity to interact with professionals.

OBJECTIVES

The main objective of the workshop is an attempt to provide a forum for the exchange of ideas and expertise between the fields of transportation and Environmental Engg. The participants will be able to apply the innovative knowledge gained during the workshop to process design, research and teaching.

SCOPE AND AREA TO BE COVERED

Transportation Engineering includes traffic flow analysis, geometric design of road infrastructures, BOT project and tendering process. The capability of transportation can be increased by better transport management techniques including improvement in traffic control, solution for existing traffic issues, Public Transport system, and development of mass transit system.

Environmental Engineers need to work on solutions to issues, like pollution reduction and cleanup, energy consumption, land erosion, water treatment and solid waste, E-waste management in an effort to properly manage and maintain the quality of our soil, water and air.
