

3 days training program under Centre of Excellence Automation Anywhere

“3 days training program under Centre of Excellence Automation Anywhere” was organized in between 17/7/2019 to 19/7/2019 by AISSMS College of Engineering. Speaker for the program was Mr. Manoj Kumar. K, Product trainer for Automation Anywhere. Faculty and students from various department of AISSMSCOE attended the training program. This training program has provided participants with tools to create their own software robots to automate process. Robotic process Automation is sighted as one of the most disruptive and futuristic technologies used by the world’s most successful businesses in every industry. RPA technology is expected to create 290,000 to 300,000 new high-paying jobs over the next three years. Experience shared by participants was excellent as it was great learning experience and knowledge gained was invaluable.

This program was focused on repeated work Automation using software. Total 58 participants attended the training program The Program was coordinated by Mrs. V D Nagrale, Assistant Professor in Electronics and Telecommunication Department, under the guidance of Dr. D G Bhalke, In charge Centre of Excellence and HOD E&TC and Dr. D S Bormane, Principal AISSMSCOE.

We express our gratitude towards Shri Malojiraje chhatrapati, Secretary AISSM Society, Shri. S P Shinde sir, Joint Secretary , AISSM Society and other Managing Committee members for their constant support and guidance.
