(Final year Projects and Mini-Project guidelines)

Objective of Expert lecture: Knowledge sharing and guidelines to students and faculties about new challenging technologies in the market.

Date of Lecture: 08 and 09 July 2019

Audience: Third Year and Final Year students (TE and BE) Shift-I and II Computer Engg.

Expert Name: Mr. Rahul Ahire

Expert Designation and Organization: Director, Linkcode Technologies pvt ltd Pune

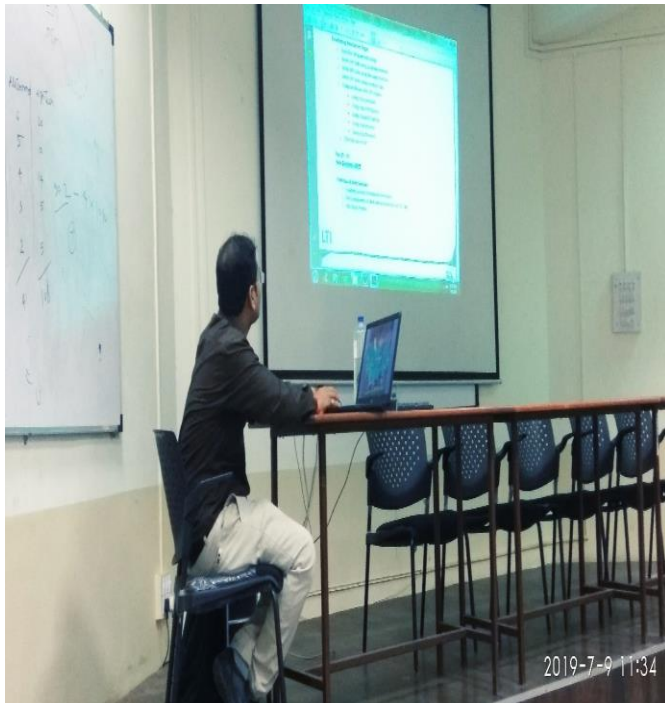

Link-code is a Corporate training and placement company, who trains individual and corporate client on multiple IT technologies and management skills.

They Conduct following training:

1. **Retail training** for college students
2. **Corporate training** for corporate employees
3. **Placement oriented training**
4. **Corporate placement oriented training**
5. **Engineering College -Technical Workshop on new demanding Technologies.**

Mr. Rahul has conducted the hands-on sessions on Java mini projects. He has guided the students how to accomplish project. Also focused on new and challenging technologies in the industry domain. Students were very much delighted and motivated. He enabled students to gain practical knowledge and avail them better placement opportunities. He highlighted the key

aspects of agile and various software development strategies.

(Above pics are of Mr. Rahul Ahire with students – Demonstrating the technologies)

These sessions were very helpful to students to understand industry requirement and to clear campus interview.
