Safe Campus & Standard Hygiene Practices at AISSMS

AISSMS congratulates and welcomes all the students for the Academic year 2020 - 21. AISSMS ensures a safe campus for students, employees, and visitors. We are ensuring that all kinds of safety measures are being carried out during this Covid-19 pandemic.

We are following safe campus and standard hygiene practices as prescribed by the government from time to time. AISSMS has the number of branches like Engineering, Pharmacy, Information Technology, Management, Polytechnic, Hotel management and Catering Technology, and Industrial Training Institute. The entire campus is regularly fumigated and sanitised, right from the security gate to the restrooms we are exercising special precautions. We are maintaining Social/Physical distancing and other norms like wearing masks and gloves.

The security gate is the checkpoint for Aarogya Setu App besides checking the temperature of the visitors and sanitising them. At the registration booth, we make the data entry of visitors after which they are sent to the respective college for further inquiry. Visitors are sanitised again at the entrance of each college.

Safety Standards During Admission Process

Once entered in our campus, we maintain strict social/physical distancing in the admission counselling room. Also, to ensure minimum people on the campus to maintain social distancing, we have an appointment system. We ensure minimum contact during the admission process. Chairs and benches have also been re-arranged for maintaining social distancing. We have made online arrangement for submitting the admission related documents and other admission related queries. Special care is taken in restrooms by sanitising them frequently. Adequate cleansing material is provided to our cleanliness staff. All the safety protocols are in place at our campus.
