Innovation Cell

AISSMS COE has formed Institute Innovation council for start up- innovation activities. This council aims to support creating world class innovators and entrepreneurship along with graduation course of engineering. Through IIC our students as well as faculties are attending different online sessions and competitions like, SIH, National Innovation Contests, KAPILA -IPR and leadership program. We have registered and submitted more than 100 SIH problem solutions in 2019-20 and got shortlisted for 3 software solutions and 2 hardware solutions. We won one prize in final Hardware SIH 2019-20 which was conducted at IIT Hyderabad. We submitted around 11 Software + hardware solutions in SIH 2020. We have submitted two prototypes in National Innovation Contest 2020 and got selected for mentoring from expert assigned by MIC. With Innovation spirit we have arranged online (Covid 19) webinar series and online start up competition in May – June 2020.

Also we are providing incubation facilities with the state of the art physical infrastructure, in terms of capital equipments and operating facilities made available to their start-ups, coupled with the availability of sectoral experts for mentoring. Apart from this, business planning support, access to seed capital, industry partnerships, training and other relevant components required for supporting innovative start-ups will be provided. With this we achieved one successful start-up turned in registered company before completion of graduation in 2020-21.

Social Media Cell

Media is a gift of technology that provides us with the medium for mass communication. Communication tools used to store and deliver information or data. Social media plays an important role in every student's life. It is easier and convenient to access information, provide information and communicate via social media. Teachers and students are connected to each other and can make good use of these platforms. Platforms like Facebook, LinkedIn, Instagram, YouTube and Twitter are used by almost everyone. Print Media includes newspapers, weeklies, magazines, blogs, banners, graphics, posters and other forms of printed material. In order to effectively make use of media, it has been decided to publicize our College events through social and print media

Compliance of the National Academic Depository (NAD), applicable to PGCM / PGDM Institutions and University Departments.

BEST PRACTICE-2 TITLE: ONE FACULTY ONE INDUSTRY DRIVE

Objectives of the practice: This practice is implemented to enhance association with relevant industry for providing industrial exposure to the students and faculty. With the involvement of the entire faculty of the institute, following are the objectives set.

1. To organize visits to the industry for the students and faculty.
2. To organize expert lectures by industry person for the students and faculty.
3. To organize short term training programme by the industry for the students and faculty.
4. To encourage students for joining industrial internship during vacation.
5. To encourage students to undertake final year project in industry under the joint guidance of faculty and expert from industry.
6. To identify and sign memorandum of understanding with various industries for the mutual benefit.
7. To conduct human resource development programme by the faculty for industry personnel.
8. To establish linkage with various non government and government agencies.
9. To involve industry experts in need based curriculum development.
10. To offer consultancy and testing services to solve industrial problems.
11. To encourage faculty to undertake projects from industry.

Context: Industry is the major stake holder of technical institution. Continuous interaction between technical institution and industry is an essential requirement to enhance an employability of engineering graduates. AISSMS College of Engineering has been in association with various industries and providing very good industrial exposure to the students. In implementing the various industry related activities, following aspects were required to be addressed.

1. To be in continuous association with the industry, it is necessary to have single point of contact from the department/ institute side.
2. It is required to identify industries from different areas of engineering for providing industrial exposure to the students and faculty as per their field of interest.
3. Involvement of the faculty in industry institute interaction activities is always beneficial in strengthening the teaching – learning process in the department/institute.

In this context, institute has initiated “One Faculty One Industry Drive”.

Practice: In this “One faculty One Industry Drive”, every faculty of each department has identified one industry for the purpose of Industry Institute Interaction. With this drive, interaction with the industry has improved a lot and students and faculty as well, getting benefitted. To coordinate this activity, Industry Institute Coordinates at department and institute level are appointed forming Industry Institute Interaction committee. This drive has provided an opportunity to the entire faculty to have interaction with the industry as per their field of interest and the same has been resulted into association of department with wide spectrum of industries. Better interaction in between department and industry is possible because of the single point of contact from the department side. It helped the faculty to improve the interaction with industry (outside world). Interaction with industry helps faculty to provide real life problems, case studies to the students, especially in higher education institutes.

Evidences of success:

Sr. No.	Nature of activity in association with industry	Number of activities in 1 st two years
01	Industrial visits	42
02	Talk by industry expert	52
03	Industrial internship	223
04	MoU signed with industries	40

BEST PRACTICE-3 : INNOVATIVE LIBRARY

Cultural :

The COVID-19 pandemic struck every one and forced us to stop our routine activities and stay in our home. But instead of wasting this time, we carried out certain activities through the online platform to keep everyone positive and entertained. Here are all the details of each and every activity carried out by the cultural department.

1. Quarantine's Got Talent

Quarantine's Got Talent was the first activity carried out in the lock down period by the cultural department. The basic aim of this activity was to bring some positivity and enthusiasm among the students of our college. The activity included dance, art, acting, music and poetry. Students who were willing to participate sent their videos through a link provided and we showcased them on our college's official cultural page on Instagram. A total of 20 students participated in this activity. We have also created a short video of this activity to summarise it. The link for the same is mentioned below:
<https://www.youtube.com/watch?v=oyLARDYBFOc>

2. Unlock2020

After Quarantine's Got Talent, the unlock phase started and the routine life started taking pace. We also thought of carrying out another activity which will be unlocked for all the audience and not just for our college students. So the students of cultural department came up with Unlock2020, where various activities like dance, singing, acting, art, instrumental, photography, videography and poetry were included. And also we arranged a small Bollywood quiz competition, Unlock Your Movie Talent, so the ones who can't participate in the talent show won't feel left out. In all we got 380+ responses out of which we got 60+ for Unlock 2020 and 330+ for Unlock Your Movie Talent. We have uploaded a compilation of best of Unlock 2020 videos on both cultural department's official Instagram and YouTube page. The link for the compilation is provided below:
https://www.youtube.com/playlist?list=PLccI-Rlk0m4z8mVed_6bDsK_zGSE8q1q

3. Band Baaja Halad-YouTube Premiere

After an immense response for the talent showcase activities, we arranged a premiere of our one act comedy play, Band Baaja Halad (बंड बाजा हलद) on 25th July 2020. This play was performed in September 2018 at various one act play competitions like Dajikaka Gadgil Karandak, Bharat Karandak and Vinodottam Karandak.

This play has bagged several awards including Second Place in Vinodottam Karandak. The director of this play, Pushkar Shinde and Neeraj Langhe also got awarded by Second Prize for Best Direction. Two factors, Ashish Adhari and Shreya Vashikar got awarded with Consolation Prize for Acting in all the three competitions. The premiere got a huge response from the audience with 8700+ views on YouTube. The link for the same is provided below:
