## Title- ENERGY CONSERVATION AND SUSTAINABLE ENERGY RESOURCES

Date-30 December 2020

An illuminating Webinar on the topic Energy Conservation and Sustainable Energy Resources was held on the 30th of December hosted by the IUCEE Student Chapter.

The webinar was overseen by our IUCEE coordinator and student coordinator Dr. M. S. Deshpande and Mrs. M. M. Swami. Kicking off at 6.30 pm, some light was shed on the need for energy conservation by the guest speaker, Mr. Mahesh M. Wagh

In his speech, Mr. Wagh narrated the journey of his education and professional experience in the field of energy. He spoke how large scale energy conservation plans are a need of the hour and how acquiring sustainable energy resources is a must for the sake of future generations.

He ended his case with how much the usage energy has increased and how in 50 years we will have consumed the majority of the accessible non-renewable resources.

He also called attention to how much difference in energy conservation could take place if each and every person took it upon themselves to do their bit for the environment.

The session ended with a QnA in which Mr. Wagh clarified and further enhanced the knowledge of the participants.

The vote of thanks was extended to our chief guest, Mr Mahesh Wagh, honourable Principal Dr. D. S. Bormane, Dr. M. Deshpande, Mrs. M Swami and the student body for putting their heart into the webinar.
