

IUCEE STUDENT CHAPTER

WEBINAR REPORT

TOPICS OF THE WEBINAR- Lack of Technology Intervention in Agricultural Ecosystem and its solution and also of Hydroponics Farming.

ACTIVITY LEVEL- Institute level

DATE- 23 December, 2020

TIME- 6:00 pm

SPEAKER- Dr. Lalasaheb Tambade

TOTAL NUMBER OF STUDENTS- 70 participated

OBJECTIVE OF THE WEBINAR- Encourage the students and also to pursue the knowledge in the field of agricultural ecosystem and hydroponic farming.

OUTCOME OF THE WEBINAR- The speaker explained about the two major problems, that will be faced by the agricultural industry in the coming years i.e. Lack of land and scarcity of water. To overcome these problems the agriculture industry is also developing new techniques to grow food in lesser space and by saving water. The hydroponic growing system is a step towards this. The speaker explained this new technique in brief to the students. Many of them asked questions related to this technique in the end and got their doubts cleared. Overall, the session was really informative and helpful for the students.
