Department of Artificial Intelligence & Machine Learning

Organized Workshop On

World Creativity & Innovation Day 2026:

Ignite Wadhvani Foundation Idea Launch Boot camp

On Date: 21st & 22nd April 2026

Report for IIC Submission

1. Objectives of the Program:

The objective of this program is to introduce participants to the fundamentals of entrepreneurship and startup development through a structured and practical approach. It aims to provide comprehensive program orientation and smooth platform onboarding to ensure effective participation. The bootcamp focuses on developing creative problem-solving abilities using design thinking methodology, enabling participants to identify real-world problems and validate customer needs. It encourages innovative generation of ideas and guides learners in developing prototypes. Furthermore, the program is designed to equip participants with knowledge of business model creation, financial management for profitability, and opportunity and competition mapping. Ultimately, it prepares participants to confidently present their ideas through a final pitch submission.

2. Participants' Benefits/Outcomes:

Through this program, participants gain hands-on experience in transforming innovative ideas into viable startup concepts. They develop essential skills in design thinking, problem-solving, and innovation, along with the ability to identify and validate customer needs effectively. Participants learn how to build and test prototypes and MVPs, and understand the process of creating structured business models. The program also enhances their knowledge of financial planning and profitability, as well as market analysis and competition mapping. Additionally, it improves their communication and pitching skills, boosts confidence in entrepreneurial abilities, and provides exposure to industry-relevant tools, platforms, and mentorship, enabling them to take their ideas forward toward real-world implementation.
